Re: Reckitt Benckiser
Re-testing of Ultra Liquid Rid-X Septic System Treatment

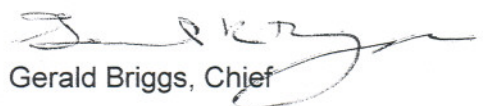

Dear Mr. McCormack:

This letter is to acknowledge receipt of the new toxicity bioassays for the re-evaluation of the product "Ultra Liquid Rid-X Septic System Treatment" for compliance with section 381.0065(4)(m), Florida Statutes. The staff has reviewed the information provided in the (96-hr LC_{50}) acute toxicity bioassays performed on the product "Ultra Liquid Rid-X Septic System Treatment" by Springborn Smithers Laboratories of Wareham, Massachusetts and ABC Laboratories of Columbia, Missouri. The department has determined that the product is in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the product in accordance with manufacturer's application rate of 10.5 fluid ounces per month. Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the products as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes. If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

Gerald Briggs, Chief

Ultra Liquid
RID-X[®]
SEPTIC SYSTEM
TREATMENT

To Help Keep Your
Septic System
Trouble-Free

Ultra Liquid RID-X[®] Septic System Treatment contains beneficial bacteria and enzymes that break down solid organic waste like grease, fat, protein, starch and paper.

- Helps prevent septic system backup
- Digests both grease and paper
- Helps keep drains running smoothly
- Safe for all pipes and plumbing

DIRECTIONS FOR USE:

Septic Tank Size	Weekly Treatment Amount
Up to 1000 Gallons	3.5 fl. oz. (approx. 1/2 cup)
For every additional 500 Gallons	Add an additional 1.75 fl. oz. (approx. 1/4 cup)

Shake bottle before use. For best results, pour 3.5 fl. oz. (approximately 1/2 cup) of Ultra Liquid Rid-X[®] Septic System Treatment directly into the toilet or any sink drain weekly. Flush toilet or run water down sink drain for 15 seconds. Use before periods of plumbing inactivity such as overnight.

Ultra Liquid Rid-X[®] Septic System Treatment also helps keep drains running smoothly. The natural bacteria and enzymes help remove the tough build-up that causes slow-running drains. Pour 3.5 fl. oz. (approximately 1/2 cup) down the drain, followed by 8 fl. oz. (1 cup) of water.

KEEP OUT OF REACH OF CHILDREN

This product contains no toxic pollutants as defined pursuant to the Federal Water Pollution Control Act. Occasional pumping may also be required for good septic system maintenance. Contains Bacteria Cultures, Enzymes, Preservative, Coloring Agents, Fragrance and Water.
